These celebrated Bitters are composed of choice Roots, Herbs, and Barks, among which are Gentian, Sarsaparilla, Wild Cherry, Dandelion, Juniper, and other berries, and are so prepared as to retain all their medicinal qualities. They invariably cure or greatly relieve the following complaints: Dyspepsia, Jaundice, Liver Complaint, Loss of Appetite, Headache, Bilious Attacks, Remittent and Intermittent Fevers, Ague, Cold Chills, Rheumatism, Summer Complaints, Piles, Kidney Diseases, Female Difficulties, Lassitude, Low Spirits, General Debility, and, in fact, everything caused by an impure state of the Blood or deranged condition of Stomach, Liver, or Kidneys. The aged find in the Quaker Bitters a gentle, soothing stimulant, so desirable in their declining years. No one can remain long unwell (unless afflicted with an incurable disease) after taking a few bottles of the Quaker Bitters.

News of the Week.

The New York Liberal Republican State Convention met at Albany, Sept. 9, and after a long debate decided to make no nominations; a platform arraigning the present Administration, opposing the third term, and favoring specie payments was adopted.

A call is circulating for a convention of republicans of the reconstructed States, to be held in Chattanooga, Tennessee, October 13.

DIED: In Oswego city, Sept. 14th, 1874, Jessie Beatrice, youngest daughter of Walter and Lucy Mond, (formerly of this place.) MOULTON'S STATEMENT.

NEW YORK, Sept. 11.—Mr. Moulton begins his statement with an apology for its production, in which he says he had hoped Mr. Beecher himself would ere this have made a denial of any intimation, indishonorably toward him. Failing in th hope, it seemed to Mr. Moulton and hi friends that the question of veracity made

by Mr. Beecher ought to be settled. The statement, so far as it relates to the Beecher-Tilton matter, is an argument already published, and a comparison of his (Moulton's) previous statement with that made by Beecher. The only documentary evidence is a letter from Beecher, and a paragraph in a letter from Beecher to Moulton, saying: "I enclose

a check subject to your discretion."

The following is Mrs. Morse's letter

The New York Herald makes the following synopsis of the main points in Moulton's statement:

First-He proves absolutely that he lid render efficient counsel and aid to Mr. Beecher after the publication of the Bacon letter, averring in this respect a falsehood.

Convention will, it is said, be called by not a blackmailer, in that Beecher was a blackmailer, in that he availed himself of where there is kept constantly on hand the power which Tilton had over Bowen national banks to make an additional de- to extort, through Classin from Bowen,

> Third—He shows that the devices to which he resorted were Beecher's own suggestions, and made in the effort to to help and save Beecher.

Fourth—He gives specifically in words ustification which Beecher gave to him District Attorney J. A. Minnis and ex- for his adultery with Mrs. Tilton, namely, that "This physical expression of love was as natural as the words of endearment he used towards her." This, Mr. Moulton says, was the first enunciation of the doctrine of free love that he had which have been circulated in the North | ever heard, and it therefore became impressed deeply upon his memory.

Fifth-Mr. Moulton says that when he read to Beecher from the letter of Tilton to Bowen the charge of rape made by Bowen, that Beecher deemed it necessary to tell him the truth with reference to the woman who was mentioned by Bowen; Beecher saying, "I didn't ommit a rape; but it is true I had intercourse with the woman."

Moulton's statement is mainly a defence of himself against the insinuations in Beecher's statement and an attempt to prove by documents, dates, &c., the falsity of Beecher's statements. No outside parties are brought in by name, but Beecher is charged with adultery with

another woman unnamed. It appears from Moulton's statement, that the efforts of General Butler have been toward the safety of Beecher, in order to save him and the court from the shame that would ensue from the publication of the whole truth. General Butler from the beginning seemed to regard the downfall of Beecher as a national calamity.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the nathe Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTANDE TERS?" Our answer is, that they remove the cause of disease, and the patient re-covers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease mania heir to There sick of every disease man is heir to. shown their great curative powers in the most obstinate and intractable cases. For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.-Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VIN-EGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors

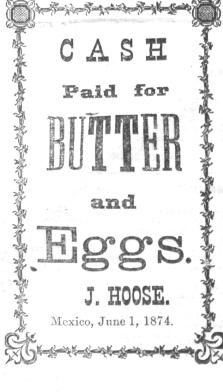

and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermituges, no an-

thelminities will free the system from worms like these Bitters. For Female Complaints, in young or old, married or single, at the dawn of wo-manhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

The Grangers' Picnic.

The Patronsof Husbandry had a pleasant time on the Fair Grounds on Friday last, the different granges in the county being well represented, as we judge from the numbers present-about four hundred. Our arrival chanced to be at the inviting hour of dinner. One company, feasting in the shade of Floral Hall seemed to be having a merry time, but

as Mechanics Hall appeared to be the center of attraction, and therefore to promise more, we made our way thither. There some, seated around well-filled baskets, were disposing of their contents in a primitive though satisfactory manner, drinking perhaps from the cover of a tin pail and remembering that fingers Hannibal, \$99.50; Orwell, \$6; Granby antedated forks, but eating with a relish of the good things that always come to picnics from the farmer's home. Larger parties had the chicken pie, berry pie and the long line of edible and-so-forths placed temptingly on tables at which they sat and dined in a more pretentious way, but it is a question yet unsolved which enjoyed the dinner the most.

But, alas! we were no granger, for only now and then did the face of one we could call by name appear in the distance, and we sat and waited, wondering when the speech was going to begin. Once indeed we thought we perceived a lady "we used to be acquainted with" at

strange as any of the faces, and we retreated ignominiously to our place near the door. That accidently proved to be in the neighborhood of a council of the leaders, but we assure them that whatever secrets of the order we may have heard will never be divulged. We were not hungry however, except

for familiar faces, which soon appeared, and meanwhile we found it pleasant to look around upon the intelligent company and fancy them in their several homes. It took some time for the picnic to

transform itself into an audience, but all things being ready, order was called by Mr. Albert Potter, of Orwell, on whose motion Mr. Wm. Chapman, of Texas, was chosen chairman. Music by the Helicon Band was followed by singing by the glee club; a committee on resolutions was appointed, and with a few appropriate remarks the chairman introluced the speaker, T. A. Thompson, of Minn., lecturer of the National Grange. Mr. Thompson said he was a farmer, familiar with all branches of farm labo as performed before the introduc tion of machinery and now. Hereview

Farming, having no control over the prices of its own productions, pays too small an interest on the capital invested. The Grange has helped and is helping

to lessen these evils. It does away with the surplus middle men—patron agents are now in the leading cities, the farmer deals more directly with the manufacturer, and by a cash system is able to purchase goods at greatly reduced rates, besides being enabled to sell his products of Mexico purpose having a Dining Trest upon them, and they propose to wield those responsibilities for the hours during the three days of the Fair. An Interesting Relic.

Dr. B. E. Bowen, on a recent visit to his friends in Eastford, Ct., obtained at the old homestead a newspaper (the Providence Gazette), printed Jan. 4, 1800. This paper is 18 by 22 inches, and is deeply dressed throughout in mourning, containing the announcement of the death of Gen. GEORGE WASHINGon, which happened on the 14th of the previous month. It also publishes a statement of his decease and its treat-ment by the two principal physicians; also an account of the funeral services, and conveyance of his remains to their last resting-place at Mount Vernon. The Dr. has been kind enough to show us this relic of antiquity, and what gives it, undoubtedly, to him an additional interest is a notice of the following marriage:

The Commissioners appointed by the last New Jersey Legislature to receive proposals for sites for the institutions mentioned in the act empowering them, have commenced to advertise in the local

For the deaf-mute institution, they want a site containing not less than twenty acres. It must be remote from malarial influences, and capable of complete drainage; and of securing thereon an abundant supply of sweet soft water.

The proposals must contain the lowest price per acre, and the State must be given an option to purchase at any time before April 1, 1875.

Concerning these sites the Courier of Tom River, N. J. says that nearly every city and town are moving in the matter, and that some have offered to give the sites outright. And it adds that it wants to know what the citizens of Tom River

are going to do about it.

The New York Times of Sept. 2 says On Aug. 24 the Council of the City of New Brunswick passed a resolution providing for the appointment of a committee to receive offers of sites within the municipal limits for the erection of the proposed State Deaf-Mute Institution, containing not less than forty acres, and investing the committee, when appointed, with power to secure the refusal of any or all of the sites up to April 1, 1875, at a price not to exceed \$35,000. On Monday night a large crowd of prominent citizens assembled in Breer's Hall to take action upon the matter, and to raise the \$35,000 to be expended. Among those present were Dr. Campbell, President of Rutgers College; Abram Voorhies, President of the State Bank of New Brunswick; Col. Spencer were delivered by Mayor De Russey, Rev. Dr. Hartranft, Pastor of the Reformed Church; Col. Cone, and others, warmly endorsing the action of the Resolutions were adopted in favor of the gift of a site to the State, and authorizing the City Council to bor-

The other day we happened to see card bearing the following printed business inscription of a deaf-mute:

While glancing over the card we were reminded of the interview which Mr. Erastus D. Duncan, of New York, who was in this village some time ago, told us he had with Mr. Taylor in Attica. One morning he entered his store, as a speak crally, he was handed a slate to write what he wanted to say. How Mr. T. acquired his knowledge of the present pursuit in which he is occupied, we have not learned, but we suppose he began it as an apprentice. He was educated at the New York Institution, and we are told, is as steady with his eye glass as the clock.

seen the alphabet used in such a clear hill to hill. They went up the lovely Hudson via. New York Central Railway, and the first stop to catch the special northern express was at Yonkers. When it came thundering in, there was a great rush to obtain seats, and in it the unlucky "Kouponeti" lost a nice little cane of the birch variety, which he was carrying from the metropolis as a professional momento. In recompence there for his party were fortunate enough to obtain a compartment all to themselves in the drawing room car, where they tioned recently as having a deaf cat, tells gave loose rein to conversation in their own swift language, and the trip up the road was unbroken by any intruding, except an occasional professional visit by the conductor to punch our tickets and take up our coupons, and make sure that none of us were talked to death, or in the least danger thereof. What he must have taken us for, we really found it hard to imagine. If he had any opinion on the subject, it must have been that we were a particularly merry and happy deaf-mute family en route for our summer home. K. earnestly hopes that in the conductor's estimation he was not mistaken for the husband and the father of the little girl that accompanied the party. If he figured as the big brother, he is thankful and content.

The company kept well together, and parted within half an hour of each There was a good deal of final hand shaking and adieus, for it is doubtstranger, and when he began to ful if the members of the party or any two will ever meet again.

K. took the Rome, Watertown and O. Railroad, and as he sped along through Northern New York, felt and remarked that it was uncomfortably chilbe the owner of that good and well ly, nor did he get over it for the first week of his delightful visit to Mexico.

There is quite a little colony of mutes at Mexico, and every summer it is visited by prominent persons connected with cause of mute instruction. We should not be at all surprised to see the place, in a few years, the centre of an important branch of deaf-mute industry. Our visit was happily broken one morning by the arrival of our friend Mr. H. W. Syle. The gentleman was on his way to Canada, and when he restarted, we, of course, bore him com-

pany. We went via. Oswego and Lake Ontario, and arriving at the city on the lake, found the usual hitch in our baggage, and had the fun of trotting around the city an hour on a particularly hot afternoon before we could find a man of business, and then we had to go up flights of stairs to discover him. Good bye, Oswego, we are good at rememberg old scores.

On board the Ontario steamer, which n the matter of speed, was a delusion and a snare, having actually a canal boat in tow, we met a couple of Canadian gentlemen, who, much to our gratification, happened to be friends of Dr. Palmer, of Belleville. They were very agreeable, and gave us much general information concerning the Canadian border and our chance of finding fossils around the town. They were also frank in matters of enterprise, and told how, when a few years ago a little gold was discovered back of Belleville, the Yankees came over and bought up every inch of land for acres around, and were soon shipping what they found right under the Canadian nose to Uncle Sam's mints. The same was true of an iron mine lately discovered.

On the whole we spent a very place ant evening with the gentlemen, and Belleville and had a splendid time afterwards, we regret exceedingly that we were unable to meet them at the picnic at Picton.

The popular among the deaf-mute community were well represented at the Belleville Convention, but it was a matter of regret to see one or two localities preponderating too much. Persons whom we had fully expected to meet, and who we could almost say, were in duty bound to be present, were conspicious for their

absence. It's always so. The events following our return to Mexico, have already been chronicled, and a repetition is unnecessary. Mr. Syle was unable to stop; business engagements demanded his presence elsewhere, and in a day or two the New York papers contained descriptive productions from his

We visited several gentlemen of influential and leading positions, our object being to seek their views about the proposed plan of an institution for the deaf in the central part of the State. after remarks by gentlemen present a committee of seven was appointed to further the enterprise. A number of deaf mutes were present whose names as far as we recall may not be uninteresting. Mrs. T. Avery, Mrs. Grace Chandle Mrs. Alphonso Johnson, Mrs. and Miss Clara Mather, Mr. and Miss Evans, residents of Rome, and others whose names we do not recollect.

By the evening of the next day the party had dispersed, Dr. Gallaudet for Bos ton, and the rest up the St. Lawrence generally. K. went to Geneva to spend Sunday and a few days' devotion to the fish of Lake Seneca. Though our stay was necessarily brief we enjoyed ourself immensely, and right here we may as well own up that we always do in that latitude. Mr. F. M. Tuttle's studio was visited and duly admired. Mr. T is an enthusiastic yachtman, and is already preparing to enter a fast craft at the regatta which occurs at Watkins sometime in September. He expects to carry off one of the prizes.

Riding down to the post office one af ternoon, we were agreeably surprised to meet Mr. J. E. Doran, of Syracuse. He was in town for a day, had been visiting friends on Cayuga Lake, and was on his way to Buffalo and thence to Chicago. If he is not punctual at the opening of his school term, his classmates and friends will know where to find him.

(From the New York Times of Aug. 31.) Yesterday morning two men who gave he names of James Boyd and William Patten, were arraigned before Justice Wandell, of the Tombs Police Court charged with having been drunk and disorderly the night before. Upon beng brought to the bar to plead, one of the prisoners. Boyd, handed a small scrap of paper to one of the policemen and made signs that he wanted him to give it to the Judge. It was then discovered that both prisoners were deaf-mutes. Justice Wandell seemed a little surprised that they should have been arrested on such a charge; and asked the officer who arrested them what they had done. John Clark, the proprietor of an oyster-house, No. 340 Canal street, testified that the two men had gone into his place on Saturday night, both very much under the influence of liquor, and asked him for two oyster stews. After they had eaten the oysters they refused to pay for them, and when Clark insisted on being paid they attacked him, and tried to beat him. He succeeded in making his esthough we met one of them at the recep- cape, and caused their arrest. In the Can keep 30 Cows, besides Horses, Oxen. &c. struggle they broke a number of bottles, valued at five dollars. Learning that one of the men, Patten, had ten dollars in his possession, Justice Wandell directed the clerk to ask him in writing whether he was willing to pay for what they had broken. He read the paper and nodded assent. The \$5 were then paid to Mr. Clark, and the Justice then fined Patten \$5, giving him the option of paying the fine or remaining five days in jail. He paid up and left. Boyd

> ance, but having no money, went back disconsolately to serve out his term. Isn't it about time these sprees were topped? They can be of no earthly use to the deaf-mute. They deplete his pocket, and debase his manhood, ruin both health and reputation and put him under the eye of the police, get him into iail and compel him to pay heavy fines. They get him disgraced in the papers and even under an assumed name, the community has to bear the dishonor. Stop, boys, stop !- ED.]

Deaf, Dumb and Paralyzed. The Troy Whia gives the following In the latter part of July, John R. Davey, a son of Mrs. John R. Davey, of Troy, was taken with an effusion of the head. The boy went in swimming on the 30th of July, and on that night he suddenly became delirious. Dr. T. B. where. Seldom has it turned on it a Heimstreet was sent for and prescribed deaf ear. We must not omit to menfor him. The boy has since been confinCrocker ed to his bed. Two weeks ago the fever left him, and on that day Rev. Mr. Shinn, of St. Paul's church, went to the house with some flowers for the invalid As soon as the boy saw Mr. Shinn, he arose in his bed and exclaimed, 'Oh. how thankful I am to you for your kindness," and immediately fell back in the fortable, and a well furnished one; two aggregation, and will not allow the mess-bed, deaf and dumb, with his left side paralyzed. In this condition he has since remained. One of our reporters called on Dr. Heimstreet yesterday afternoon in relation to the case. The doctor says ates, husbands, land-owners and busy at the cause of the boy's sudden misfortune was an effusion of the brain on the left side of the head. The doctor has hopes (if the effusion decreases) that he will recover, and regain his speech and hearing again. The doctor has been unable to see him for some days on account earned that a picnic was on the tapis, of illness. He also says that it is a singular case. A person affected with an effusion of the brain generally dies in about five days, but this boy has now week found us in Auburn, where we met lingered over four weeks. Our reporter also called at the house of Mrs. Davey, and there he saw the little fellow lying in bed. His form is almost entirely The next day we were in Rome, chuck wasted away, and he is unconscious, and full of enthusiasm and plans for the pro- does not recognize any person who calls to see him.
